

Rid your outside areas of pesky and dangerous bugs the safe way!

Keep your customers and employees enjoying the summer weather without the inconvenience of mosquitoes, ticks, lice and other insects. *Dads Against Mosquitoes (D.A.M!)* uses an environmentally-friendly, EPA-approved treatment to safely and effectively protect and increase the utilization of your outdoor area.

What is Dads Against Mosquitoes?

Dads Against Mosquitoes is the only scheduled spraying service devoted exclusively to protecting your outdoor area against mosquitoes and other pests all season long! *D.A.M!* also offers an all natural “bee friendly” bee deterrent which is ideal for outdoor eating areas which attract pesky bees. Just call 630-359-9000 to schedule an evaluation appointment. Once applied, *D.A.M!* is a long acting product that remains effective for weeks.

Why Dads Against Mosquitoes?

Not only do you want to keep your customers and employees happy, but safety is also an issue. West Nile Virus is a real threat, with Illinois ranking as one of the states with the most confirmed human cases. Not only will *D.A.M!* protect your business against West Nile, it also eliminates or reduces the dangers of Encephalitis and allergic reactions caused by insect bites.

Where Can Dads Against Mosquitoes Be Sprayed?

Anywhere outside. *D.A.M!* offers excellent service for public pools, outdoor cafés and beer gardens, baseball fields, courtyards, public places such as fountains or town squares, and office gathering areas.

Call today to schedule an evaluation appointment and begin optimizing your outdoor area!

Remember to ask about D.A.M!'s new all-natural “bee friendly” bee deterrent — ideal for outdoor eating areas with pesky bees.
